

Jack—

Good work on catching this. I think these might be the same people I got head's up about through other channels. If that's true, then they're out-of-towners and they're interested in poking their noses into old business. They might turn up at an old farm; keep an eye on Highland Park Agricultural District Lot 12.

Jason Franks: Pilot. Moustache, sharp nose, mid-30s.

Alice: Mid-20s. Plain jane, but with a sharp fashion statement. Love of pants. Might be a cop; or at least willing to pretend to be a cop.

Lucille Hayward: English. Chin-length brown hair. Long neck. Hazel eyes. Seems to have a lot of money to throw around. Lots of different outfits.

Unidentified Man: Reddish brown hair, stands about 5'8". Wears tweed jackets; very well worn.

Unidentified Man: English accent. Has a wool coat, thinning hair.

I'm enclosing \$1000. Pay them off if you can and get them out of town. We don't need the hassle right now and we certainly don't need a fuss.
