Delusions or other Symptoms.

Found near Central Mark in Serernford, badly mutilated around the face and in a state of non-communicative raving. Refused to speak to police regarding the identity of his attackers, possibly due to fearing some form of reprisal (he claims that the "pale guardians" will "come for him in the night"). After period in which Mr. Norton did not become calm, he was remanded to the asylum.

During admissions, Mr. Norton referred to visiting the "Isle Beyond Serernford". Claimed that it was a "horrible mistake". I am unfamiliar with the locale, but it's possible that his attackers have their residence there. Repeatedly mentioned "going too near the stone".

Conditions on Admission.

Deep tearing wounds around eyes, under chin, and behind the ears. Scrapes to the knees. Slight arrhythmia of the heart, possibly due to patient's panicked state.

Height 5 ft. 9 inches.

Weight 9 st. 9 lbs.
