NECTAR LEDGERS OF MALTA

These accounts, dating from 1930 through the present year, summarize the rapid growth of a gray market empire specializing in Nectar. Shipments from Malta are now made regularly to:

- Marseilles, France
- Rotterdam, Netherlands
- Hamburg, Germany
- Algeciras, Spain
- Felixstowe, England
- Genoa, Italy
- Piraeus, Greece
- Nador, Morocca
- Bizerte, Tunisia
- Alexandria, Egypt
- Tripoli, Libya

After several years of success, the expansion of the enterprise appears to have stalled for most of 1934 due to a lack of production. In November of that year, however, the production of Nectar appears to explode.

Surprisingly, the only costs borne by the enterprise are labor. There are no material costs. Another oddity is the recurring line item showing payments being made to the Hospital Superbissima in Valletta. (These begin in December 1934.)
