NOTES:

- Links with patient EJ - richly intertwined delusion à~'|bæää~^AQ~bÁN^&æ→æbÁFİGHÈ
- Confrontational therapy - allow interactions...When medicated little more than vague recollections of wary angerEÁN^]Áää↑↔^ääää~àÁ\ääÁääää↑Á~ääN|&|b\ÁFG\ää´á|bæb{↔~→æ^\Á~|\â|äb\bÁää~↑ÁEÖÁä↔ää´\æää\~}äääbÁÓÖEÁ
- EJ renewing demands to speak with George Ayers from UCLA. Attempts to contact Professor Ayers still meeting with no response. Possible delusional relationship?
- 1934 session - un-medicated...EJ rushed DH screaming "You tried to kill me but I'm still here" over and over.
- DH and EJ chapter in book? Could be my 'Glimpse of Madness'.
